The National Council of Applied Economic Research (NCAER) was founded in 1956 as an independent institution, run by its Governing Body, to give support to both the government and the private sector in empirical economic research. The NCAER's work programme is currently divided into five broad research groupings.

- *Agriculture, Rural Development, and Resource Management*
- *Poverty, Human Development, and Gender*
- *Industry, Science and Technology, and Infrastructure*
- *Growth, Trade, and Economic Adjustment*
- *Survey and General Economics*

future capital research

Future Capital Research is the research arm of Future Capital Holdings Limited (FCH). This research combines macroeconomic analysis, survey-based fieldwork, in-house data and real-time business experience to provide a differentiated voice on India. We periodically publish longer-term thought pieces as well as shorter-term proprietary indicators focused largely on consumption trends.

Future Capital Holdings Limited is a financial services company in India with investment advisory, retail financial services, structured credit and proprietary research as its main lines of business.
