

# *MicroSave - and its Role in NCAER*

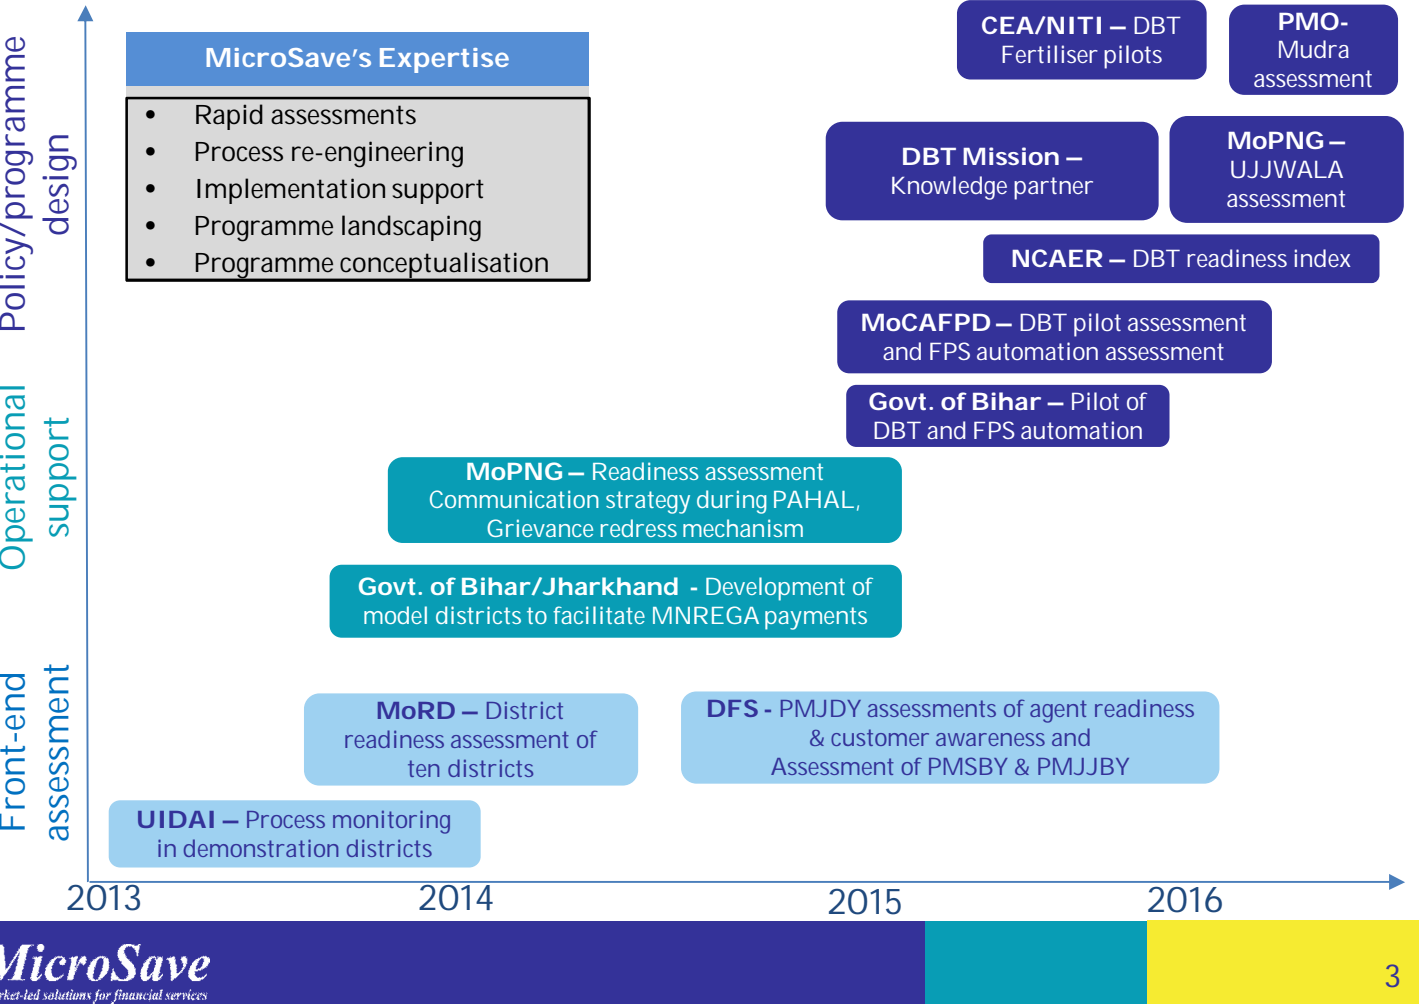

Date: 21<sup>st</sup> November 2016

## Our Inspiration ... Our Ultimate Clients

- A world in which all people have access to high-quality, affordable, market-led financial services and other support they need.

# MicroSave's ever expanding footprint in G2P

# DBT Readiness Assessment

## **MicroSave's Role in partnership with NCAER**

- Development of research tools
- Conduct regular assessment studies on DBT preparedness on quarterly basis
- Refine the index at regular interval (Quarterly and Annual)

### **Objectives**

- Measuring DBT readiness among all states and UTs in a given year and categorising states, potentially in performance bands
- Measuring an individual state's own DBT readiness over time

### **Methodology**

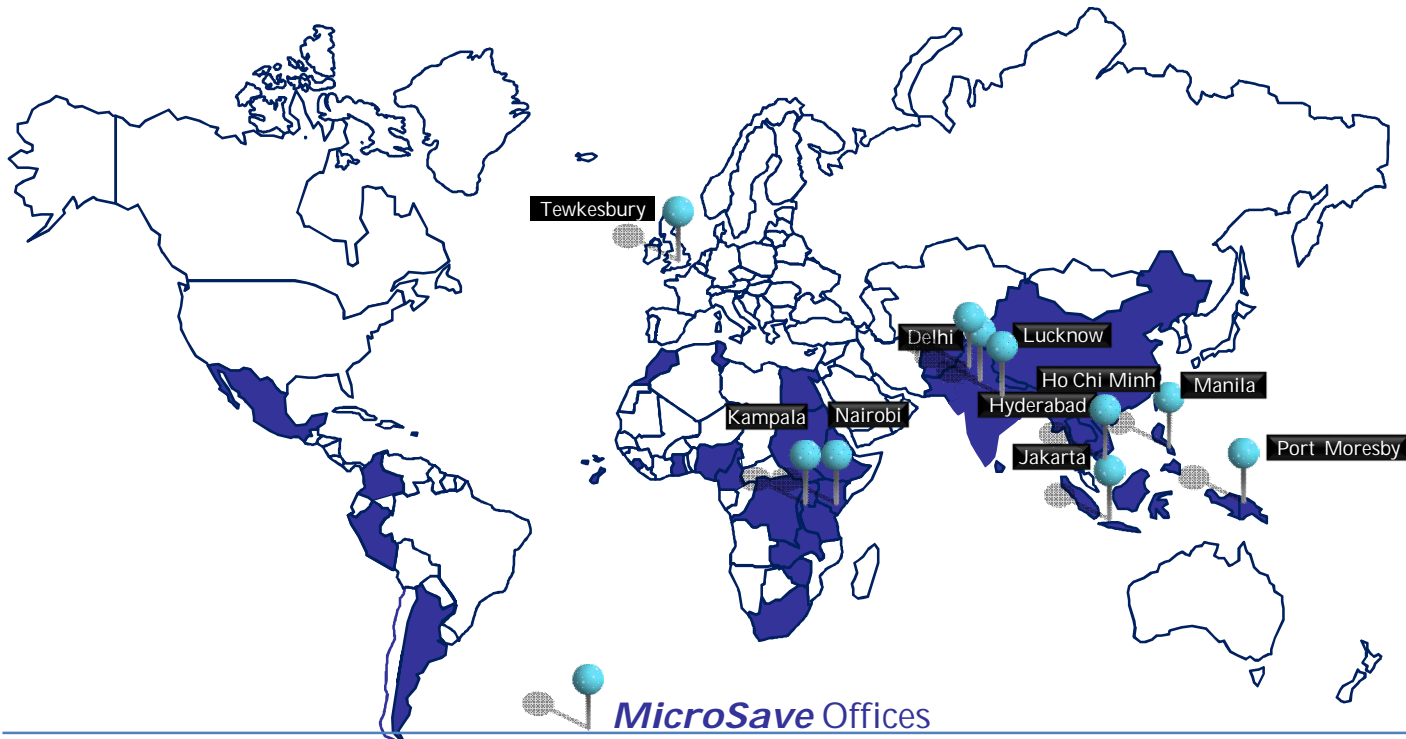

- All states and UTs - annually and quarterly with NCAER over the next 3 years starting from 2016 to 2018
- Combination of primary and secondary data available or made available by state/UT governments

### **Deliverables**

- States/UTs ranking relatively using the annual surveys
- Quarterly rankings based on an absolute index for the state/UT, which will help track state/UTs progress against itself over time

## Contd.

- Project commenced with questionnaire preparation in the month of April'2016
- As there was no literature available on DBT, questionnaire preparation took longer than expected
- Questionnaire was finalised by Mid of August'2016
- Post that we started contacting all 36 states/UTs
- Till now we have interacted personally 33 states
- We could collect data from 12 states till date though from some it is partial
- Major challenge is level of understanding in the states
- NCAER will come out with report in the month of December
- Index will be updated every quarter and one full report for each of the year 2017 and 2018
- Going forward, it will be important to handhold states through the process of DBT implementation-- specially at the front end processes.

### MicroSave Offices

**MicroSave (India)**  
 Head Office:
